Thinking Out Loud

By H. M. L.

Let us resign ourselves cheerfully to another four years of New Deal rule. We do not say Democratic rule, because that, in a Democratic party sense, is gone with the winds that blow between the continents. We do not change or surrender our principles, but we do submit to that will of the majority which decrees three terms for Mr. Roosevelt.

Two imminent dangers confront the nation, war with Japan, which would have confronted us regardless of the man chosen leader and internal dissension. We think this last will have been increased by the triumph of President Roosevelt. Those forces which have led in the new techniques of fomenting and disrupting our industrial life will be vastly encouraged to continue their course. It will be difficult for the administration to repress or conciliate such forces because to them, in the main, Mr. Roosevelt owes his re-election.

Even a cursory study of the early returns reveals the fact that Mr. Roosevelt's strength was in the large cities and industrial centers and Mr. Willkie's strength was in the rural districts. This trend is clearly evident in California's election returns.

We must reconcile ourselves to an increasing dispensation of government subsidies to various groups throughout the country. If that course is commended at the polls, more of it cannot fail to benefit the administration in power. If the farmers are dissident, as the returns now indicate, the remedy for that consists in larger subsidies to them. These things we face with reluctance, but they seem inevitable in the logic of the election.

Affecting Nevada County immediately we may expect to see the dollar devalued to fifty per cent of its pre-Roosevelt standard, and the price of gold advanced to 41.34 cents per ounce. The President was granted this authority in 1933, and in view of the depreciation of pounds sterling, it is reasonable to expect that before long he will act to offset that foreign trade disadvantage. This is inflation, but we must live in a war inflated world.

There is perhaps a grain of comfort for the losers in this election in the fact that President Roosevelt's popular majority seems to have been cut from the 10 millions in 1936 to 4 millions in 1940. It may be that the charges and counter charges hurled at each other by the leaders and their followers in this campaign, will have had a salutary effect on public opinion. The people have to a large extent weighed both sides of the dispute. While the majority have given Mr. Roosevelt a vote of confidence, at least they have become cognizant of the reverse side of the shield.

More and more we trend toward a definite cleavage between social experimentation as embodied in New Deal liberalism, and conservatism, which seeks to retain whatever proves of value in national life that New Deal liberalism brings, and at the same time to digest these reforms and cut the costs thereof to a reasonable sum.

This tendency we expect to see continued in Congress. This was voiced by Senator McNary conceding victory and congratulating President Roosevelt and Vice-President Wallace, when he said: "We shall try to afford Mr. Roosevelt and his associates a worthy and vigilant opposition." Democrats and Republican united in support of Mr. Willkie's candidacy. It is reasonable to assume that conservatives elements in both parties will still unite to prevent hasty and ill considered legislation in Congress.

SIERRA VOTERS ELECT PEZZOLA

Complete returns from election contests in two Sierra County supervisorial districts show Antone E. Pezzola defeated the incumbent, Victor I. Hallock, 281 to 213 in district three. In district five W. E. Cropen, with a majority of seven votes, leads the incumbent, Everett Deerwater. There are thirty five absentee ballots to be counted.

MRS. REYNOLDS, INJURED IN FALL, DIED LAST NIGHT

Deceased Widely Known Here Where She Spent Many Years

Final rites are being arranged at the Holmes Funeral Home here for Mrs. Martha J. Reynolds, who died last night at the Miners Hospital from injuries suffered in a fall at the home of Mrs. Minerva Wright, a daughter.

Mrs. Reynolds, who came to Nevada City in 1891 with her husband and family, was one of the oldest and most widely known residents of this city.

In 1900 Mrs. Reynolds' husband, Thomas J. Reynolds, died, leaving the widow to rear the family of two girls and two boys, all of whom survive.

Mrs. Reynolds early life was marked by many adventures and hardships. When Mrs. Reynolds reached the age of ten years the William Wyatt Scott family, composed of the father, mother and ten children, one of whom was Mrs. Reynolds, started the trek from Missouri to California.

As they were crossing the Platte River in Nebraska, a lightning storm started and the father was killed by a bolt of lightning. Prior to that a sister, who had been suffering with a lingering illness, passed away.

Despite the tragedy, the family continued its journey to California. They finally settled in Santa Rosa. From there they moved to Mariposa County, where Martha Scott married Thomas J. Reynolds. The newly married couple resided in Mariposa until they came to Nevada City in 1891.

Her life here was spent in the interests of her family but her every day life brought her in contact with many people who learned to love her and are regretful at her passing.

Mrs. Reynolds leaves her two daughters, Mrs. Wright and Mrs. A. F. Low of Ogden, Utah, and her two sons, Thomas W. Reynolds of Nevada City and Manford S. Reynolds of San Francisco.

Supervisors Act On Many Proposals At This Month's Session; Count Votes Nov. 12

COUNTY SRA RELIEF IN EIGHT MONTHS. $41,149

In Nevada County during August, 1940, 105 cases numbering 381 persons, received $2,670 under the unemployment relief program of the State Relief Administration, according to an analysis of the latest data available, made public by California Taxpayers' association. During the first eight months of this year, the association found, $41,149 of taxpayers' money has been paid to unemployed persons in the county by the SRA.

SRA is but one of the relief agencies aiding unemployed persons, the association pointed out. The federal government, under the WPA, the Farm Security administration, and other agencies, also unemployed employable persons. The total case load over the state as a whole for all these agencies on August 31 was 129,123. Translated into every-day language, this means that about 130,000 heads of families who could hold jobs were unemployed and certified as eligible for relief under the SRA, WPA, FSA, and other unemployment relief programs.

During 1940 the SRA case load in California has declined steadily since its all-time peak case load of 114,693 at January 31, 1940, to 52,673 at the end of August, 1940. This drop in SRA case load reflects both improved business conditions in the state and more careful state policy with regard to SRA operations, the association declared. Payrolls in California in August showed a gain of about 24 per cent over a year ago, while factory employment increased 19 per cent over the same month in 1939.

Such increases in employment, the association pointed out, do not begin to show the vast stimulus to industry and to employment which should come when the national defense program really gets under way in California. More than a billion dollars in orders for airplanes and ships, as a part of the national defense program, have already been placed in California and, with the services and supplies for all the other businesses which must accompany increased employment in these industries, there is little reason for any sizeable group of "employable unemployed" to be left in Califonia.

"Let's mobilize for employment in California," the association urged. "So far this biennium $73,672,091 has been appropriated for the SRA,

Englebright, Seawell, Thurman Receive Large Vote In County

Nevada County voters favored Roosevelt by a more than two to one vote at Tuesday's election and generally followed out the trend of the state vote on the other ballot issues.

Seventy six per cent of the registered voters cast ballots Tuesday, indicating the interest in the election. Generally the voting percentage is around 60.

The county totals gave Roosevelt 5,562 to Willkie 2,647. Babson received 28 votes; Browder, 21 and Thomas 51.

The county voters gave a large complimentary vote to Congressman Harry L. Englebright. State Senator Jerrold Seawell and Assemblyman Allen G. Thurman, who were all elected at the primary.

Seawell Opposed

Senator Seawell met opposition from a surprise write-in candidate, L. S. Schroder of Roseville, the latter received only 157 votes in this county compared to 5,752 for Seawell.

Congressman Englebright of this city received the largest vote cast for any candidate in this county.

Nevada City Gives Roosevelt But Scant Majority of Votes

The five precincts of Nevada City gave President Roosevelt the smallest majority of any group in the county, it develops from a perusal of the election returns. The tally follows:

Precinct	Roosevelt	Willkie
No. 1	158	106
No. 2	146	152
No. 3	149	123
No. 4	118	111
No. 5	111	93
Total	682	585

This reveals a majority for Mr. Roosevelt of 97 votes in the 1267 ballots cast in the five precincts of Nevada City. This is in startling contrast to the vote of the county which was almost two to one in Mr. Roosevelt favor. A change of 50 votes in Nevada City would have given Mr. Willkie a majority here.

The vote for Englebright, Republican whip in the House of Representatives, was 6,191.

Assemblyman Allen G. Thurman, Colfax newspaper publisher, was given a complimentary vote of 5,496.

State Senator Hiram W. Johnson polled a vote of 5,093 to Dyster's 1,363 and Whitney's 277. Miss Whitney was the Communist candidate.

Judge Tuttle Wins

Nevada County voters gave Appellate Justice Raglan Tuttle, former superior judge of this county, a vote of Yes 5,363 against 1,028 noes. Supreme Court Justice Gibson was given 3,478 Yes votes against 1,232 Noes. For Associate Justice Traynor received 3,197 Yes votes and 1,151 No votes. The vote for Justice Carter, 3,148 Yes and 1,148 No.

Amendments

On the 17 amendment propositions the vote in Nevada County was:

No. 1: Yes, 5,000, No 1,382; No. 2 4,985, No, 1, 1215; No. 3: Yes, 2,160, No. 2,736; No. 4: Yes, 3,016; No, 1,600; No. 5: Yes, 1,330. No, 5,295; No. 6: Yes, 1,990. No, 2,502; No. 7 :Yes, 1,788, No, 2,558; No. 8: Yes 3,539, No, 1,779; No. 9: Yes 961, No, 4.062; No. 10: Yes, 2,567. No. 1,732; No. 11: Yes, 2,784, No. 1,918; No. 12: Yes, 2,815, No, 1,474; No. 13: Yes 781, No, 4,492; No. 14: Yes, 2,331, No, 2,209; No. 15: Yes, 1,362, No, 3,275; No. 16: Yes 2,427, No. 2,98 and No. 17: Yes, 2,280, No, 2,737.

Although the vote for President Roosevelt in the county was 2 to 1, the president was given a much closer race in the five precincts within the Nevada City limits.

FRD Given Large Vote

The outlying precincts, Gold Flat, No. 1 and No. 2 Selby Flat and Willow Valley, however, gave the presi-

Challenge To Nevada City

The Tahoe Pacific Highway 20 Association at its meeting in Fort Bragg Saturday chose Nevada City as the site for its next meeting, which will be held some time in February.

This honor is a distinct challenge to Nevada City's reputation for hospitality. Every effort must be made to make the Tahoe-Pacific Highway Association members visit here one they will always remember and talk about.

Fort Bragg's reception to the association members was outstanding. The local group attending the Fort Bragg meeting stated everything was done to please them.

It rests upon Nevada City to equal the outpouring of hospitality shown by Fort Bragg, which is seeking the designation as western terminus of the Tahoe-Ukiah Highway, of which Nevada City is the eastern terminus.

Consumer as Well as Merchant Benefits By Spending of Money at Home

No one denies everyone has the right to spend the money they make wherever they please but the practice of spending it outside of Nevada City and Grass Valley works an injustice to the average miner and worker as well as injuring the local merchants.

Our towns are the financial centers of the community in which you live and from which your living must come. The more money we can keep at home the better will be the financial conditions here.

After all, thinking it over thoroughly, there is not a single good reason why you should send one single penny out of town. Every necessity of life can be bought at home at as low a price as anywhere else, quality considered, and it is worse than folly to close your eyes against quality and look at the price only.

Nationally advertised merchandise, under the fair trade act, are priced the same in Nevada City and Grass Valley as they are in San Francisco, New York, Sacramento, or any other city.

On other goods in many cases the prices here are cheaper than in the larger cities for the simple reason that the overhead is not as great.

We believe the matter should be considered carefully before going or sending out of town to buy. If the financial conditions in the communities are kept in good condition, it will be easier for you to get credit, either from the retail dealer or from the banks, should you need it. If the community is drained of its money, retailers are unable to extend credit, and when their receipts fall off, the cash in banks must decrease accordingly and ready money is not easily had.

If you, the public, as consumers would give a little study to the fundamental principles of community success, you can readily see that it is just as much to your interest as it is to the merchants that you make every effort to spend your money where you make it.

MUSIC RECITAL WILL BE GIVEN SUNDAY IN GRASS VALLEY

The proceeds from the recital will go to help pay the local groups transportation to Los Angeles next summer, where the combined orchestras of the Junior Musicians of America play in the Hollywood Bowl.

JUST WONDERIN'

I wonder as the silence falls
And stentor voices die away,
If life will seem quite flat and stale
Without the frenzy of the fray;
How can we use the acrid words
That came so glibly to our lips,
Now that we have no further need
For verbal goads and hissing whips?

I wonder how you are feeling now that our political war is over? My own sensations are predominantly those of relief. I rejoice in the fact that the country is again at peace, and mutter in the words of R. L. S., "thank God, and there's an end of that!"

In retrospect, the late unlamented presidential campaign seems to have been a rather uncouth exhibition of national acrimony which reached its lowest and most disgusting point with the hurling of ancient eggs, and overly ripe vegetables. Of course these demonstrations of extremely bad manners were irrelevant, and beside the point. They solved no problems, answered no questions and afforded no arguments either pro or con.

Perhaps the most ludicrous aspects of the campaign were the scoffs and jeers directed at one presidential candidate because—he spoke impeccable English with a "Harvard accent."

Some of us who have prided ourselves upon the ability to speak Bostonian, or at least a worthy imitation of it, went so far as to put our English in moth balls and utter the letter r with all the efficiency of a Latin American.

Those of us who claim direct decent from the passengers or crew of the Mayflower, should not sneer at those who may have had forefathers aboard the Half Moon.

I think it was C. K. McClatchy who once said: "consistency, thou are a gem of purest ray serene."

There was however, one sinister note, uttered in the rumbling voice of John Lewis. "Aristocrat," was the word, and that self same word uttered in that self same manner, moved many a maddened mob to bloody action during the dark days of the French Revolution.

"Oh well, it's all over now," as the turkey said upon emerging from his hiding place several days after Thanksgiving.

True, one observing us from afar might feel impelled to exclaim, "how those Americans hate one another!" But he would be mistaken; we really love one another, and the only real difference between democrats and republicans is the status quo. For instance, during this campaign, those who wished to maintain the status quo were democrats and those who wished to upset the status quo, were republicans. Four years hence if Mr. Willkie has been elected—at this writing returns are not all in—those who wish to maintain the status quo will be republcans and those who wish to upset the status quo will be democrats. It sounds complicated, but it's not; all one has to do, is to keep his mind upon the facts and his eyes upon the status quo.

Uncle Silas says: "You can't tell me that business isn't picking up; when people have eggs, tomatoes, onions and lemons to throw away, I know the depression is over."

NEVADA COUNTY DEBT $578,028

Nevada county governments—the county, cities, schools a,nd special and assessment district owed $578,028 in bonded debt at the close of the fiscal year, according to a study of bonded debt in California counties, just made public by California Taxpayers association. Average local bonded debt for each of the 19,224 persons in the county as shown by preliminary census figures was $30.07. the association stated. Of the $578,028 total bonded debt in the county, $437,750 was owed by the school districts. $75,578 by special and assessment districts and $64,700 by municipalities within the county, the association found.

The millstone of public debt now hanging on the necks of the American people is a serious impediment to the effective carrying out of the national defense program, the association declared. The debt owed by local governments is but the first or closest step in the progression of government debt, which includes state indebtedness and which reaches its zenith in the $46 billion debt of the federal government, every cent of which must be paid sometime, somehow by the people of the United States. This federal debt alone is equal to $350 for each man, woman and child in the nation—a first mortgage on every home, farm, and business in the land.

Warning that every new bond issue the people approve adds to the debt that must be paid, the association said:

"Little, except pay the bill, can be done about government debt that has already been incurred. Every new proposal that any local community go into debt, no matter how worthwhile the proposal may appear on the surface, should be considered carefully, not only on its own merits, but in relation to all the other government debt which the people of the community must pay for in future taxes."

TO EVERY CONSUMER IN NEVADA CITY-GRASS VALLEY AND SURROUNDING COUNTRY:

The Civic Beauty League of a certain town offered a prize of $250 for the best short story on Trading at Home. The following won the prize:

1st—The first and foremost reason why we should patronize our home merchants is because a careful comparison of prices and values will show that on nearly everything we can save money by doing so.

2nd—Because the merchandise sold by our home merchants is of standard quality and workmanship and its wearing qualities are backed not only by them but also by the factories that make them.

3rd—Because we can always see and inspect an article before we give our money for it.

4th—Because if we are dissatisfied with an article it is easy and convenient to either exchange it for something suitable or get our money back. We don't have to go to the bother of writing a letter and packing it for shipment and take another chance on its getting lost or broken.

5th—Because when we buy from our home merchant he gives us the benefit of his experience and knowledge if we are in doubt or uncertain as to just what we need. This advice is very valuable but rarely appreciated.

6th—Because if we spend our money with our home merchant when we have got the cash he gets to know us and if we get hard up he will give us credit which we cannot get from distant concerns.

7th—Because about thirty cents of every dollar that is spent here at home stays here and is distributed to the rest of us in the way of wages, rent, interest, doctor bills, lawyer fees, taxes, and the purchase of the necessities of life for the merchants and his clerks. But a small fraction of it goes to swell the merchant's private bank account.

8th—Because our home merchants employ our sons and our daughters and our friends. The amount of patronage given our stores will regulate not only the number of people employed, but the scale of wages paid as well.

9th—Because the more business that is done here the faster and bigger our town will grow, thus increasing the value of our property and the farms of the surrounding country.

10th—Because our home merchants want our trade tomorrow as well as today and they are always going to give us a square deal to get it and keep it.

With best wishes.

Nevada City Will Seek Revenge For Defeats Of Several Grid Years

Annual "Big Game" Between Yellowjackets and Miners Will Be Played In G. V. On Armistice Day

Seeking revenge for defeats of the past several seasons, the Nevada City gridiron squad will invade the home territory of the Grass Valley Miners Monday, Armistice Day, to do battle in a game which will decide the 1940 champion football team of Nevada County.

The contest, one of the principal attractions of Grass Valley's Armistice Day celebration will start at 2 p. m. at Hennessy Field. Prior to the opening of the game flag raising ceremonies will be held with the bands of both schools participating.

There is no possibility of the game being called off because of rain unless a downpour accurs on Monday.

Interest is high in the two cities over the battle. For the first time in many years Nevada City is actually considered to have an edge over her neighboring rivals.

Miners Downcast

Coach William Wilson of the Miners stated after the Roseville contest last Saturday, which the Miners lost by a 25 to 0 score, if his team did not play any better in the Nevada City game it was due for a sound shellacking.

After a rather poor start this season, the Yellowjackets have developed into a smooth grid machine, winning their past three games.

The team has been unable to scrimmage so far this week because of the rain so Coach Ed Frantz has been holding "skull" sessions.

Players Listed

Local players to see action in the game will be Marvin Haddy, Bob Farmer, Ken Worthley, Harry Roberts, Norman Ronnigen, Craig Davies, Gino Benuzzi, Wilford Masterson, Ben Barry, Bill Muscardini, Allen Spracklen, George Phillips, Floyd Ruth and Ronald Joyal.

Among the enthusiastic rooters for the Yellowjackets will be Kirk Martin, first string end and student body president, who was injured in the game with San Juan High School at Fair Oaks.

Two of Grass Valley's stars were hurt in the Roseville battle and may not see action against Nevada City. Schindhelm injured an ankle as did Alex Lee, lineman. Schindhelm is probably the best backfield man on the Miner squad.

Besides attracting a huge crowd from Grass Valley, the contest will draw scores of Nevada City fans. During the half intermission, the colorful girls drill team of the Grass Valley High School will perform.

CALIFORNIA HAS MUCH BIG GAME

SACRAMENTO, Nov. 7.—(UP)—California ranks fourth among the states in the number of big game animals within the borders, according to a survey by the U. S. fish and wildlife service.

Of more than 5,800,000 such animals in the United States, California has an estimated 502,485. The three most numerous species in the state are mule deer 283,492. Columbia black tailed deer 187,349, and black bear 16,280.

California has the second most black bears, being led only by Washington state with 17,400, and has more desert bighorn sheep than any other state, with a total count of 000. The state has 200 wild boars, ranking third for that species.

The figures were based on the third nation wide big game inventory conducted by the fish and wild life service with the cooperation of federal, state and private agencies.

Forty per cent of the big game animals are on federal land and 60 per cent on state and private lands.

The present figures, compiled for the year 1939 ,are 201,000, or 3.4 per cent less than the estimated big game population for 1938, but officials of the federal agency said the difference is insignificant and does not necessarily represent a decrease in game species.

Some of the apparent losses are known to be due to corrections of certain estimates in the 1938 inventory, while others may be due to more conservative estimates, the report stated.

Leading the states in big game is Michigan, with a total of 839,800 animals, 835,000 of which are white tailed deer. Pennsylvania is second with 827,300; Wisconsin third with 513,300, and Minnesota, following California, in fifth place with 461,200.

Among species, white tailed deer lead the list with 3,578,000 reported in 44 states. Next most numerous are mule deer, totaling nearly 1,400,000 in 17 states; Columbian black tailed deer, with a population of 301,200 in three states and elk, 01,300 in 28 states.

The smallest population in the big game inventory is credited to the wooldand caribu, only 15 of which were reported—all in Minnesota.

COUNTY SRA

(Continued from Page One)

If all the heads of families receiving SRA relief, and they number only 52,673 in California on August 31 of this year, were back to work—only employable persons are eligible to receive this type of aid—the need for further appropriations from the state treasury for this purpose would disappear and California's state government would come out of the red much sooner. By eliminating the need for this kind of relief, the state budget could be reduced by at least one-seventh, or about 15 per cent, and no new taxes would be threatened. In fact, with California's unemployed back to work, reduction of state and local taxes to offset federal costs for rearmament should be the order of the day. The people of California who are now dependent on unemployment relief for a living should strive to take their places as independent, free Americans, earning their own good livings and dependent on no government for their food and clothing."

LOCAL CITY CALLED GATEWAY TO NATURE'S WONDERLAND IN MASONIC WORLD ARTICLE

Nevada City—Gateway to Nature's Wonderland is the title of an article appearing in the Masonic World of November. It was written by H. F. Sofge, secretary of the Nevada City Chamber of Commerce.

The magazine also contains a picture of Ruth Tamblyn Hooper, worthy matron of Evangeline Chapter No. 9 of this city.

Secretary Sofge's article read:

"Probably no other city in northern California more advantageously situated, regarding recreational facilities than Nevada City, the gateway to the Tahoe National Fo... with the headquarters located here.

"Within the confines of the forest nature has created one of the most beautiful vistas of high mountain peaks and deep canyons to be found anywhere in California.

"The forest abounds in lakes and streams where those who delight to pit their skill against the wily trout can find foeman worthy of their efforts. It is also a hunter's paradise.

"For the summer tourist who desires to enjoy his vacation in the high Sierra, Nevada City extends a welcoming hand. Here one can purchase everything necessary for the trip, and at the forest headquarters campfire permits and complete information regarding the trip can be obtained.

"For those who prefer winter sports is offered one of the safest ski courses in the state. Approximately sixteen miles above our city, on the Tahoe-Ukiah Highway (20), the forest officials have constructed a modern ski course. It is primarily a novice and intermediate course where families can come and enjoy the sport with perfect safety With an average snowfall the course will be available until late March of 1941.

"Nevada City invites the tourist and sportsman to enjoy its hospitality, and guarantees the visit will remain a most pleasant memory."

ALPINE COUNTY TAXES $20,000

SACRAMENTO, Nov. 7.—(UP)—The annual budget of Alpine county, smallest in California with a population of only about 500 persons, presents a picture of not-so-high finance.

For instance, the coroner, justice of the peace, constable and health officer each receive salaries amounting to less than is paid the courthouse janitor, who gets only $40 a month.

The justice of the peace gets the munificent salary of $120 a year—$10 a month— and last year took in only $80 in fines. Even this small revenue must have been higher than usual, because the budget anticipates only $50 in fines for the current fiscal year.

On the other hand the law library which had a total gross income of exactly $1 last year, expects somehow or another to take in $5 this year.

Although the county has no incorporated cities and its few citizens are scattered far and wide over the high Sierras, there is a complete roster of county officers, including a superior judge, board of supervisors, clerk, sheriff, district attorney, assessor and others.

The county has a total budget of $100,239 for the current year, but only $20,086 is to be raised by taxation. The remainder consists of federal and state grants for highways, schools, social security payments and other purposes.

The tax rate of $1.45 per $100 of assessed valuation is low as compared with other counties of the state.

NEVADA CITY WILL BE HOSTESS TO HIGHWAY 20 ASSOCIATION IN FEB.

Seven From This City Attend Enthusiastic Meeting In Mendocino County Last Weekend

Nevada City was selected as the site for the next meeting of the Tahoe Pacific Highway 20 Association, which met in Fort Bragg, Mendocino County, during the weekend.

The meeting will be held in February and arrangements have already been started here to entertain the many visitors from the six counties on the Tahoe-Ukiah Highway expected to attend.

Those attending the gathering from here were Mr. and Mrs. Guerdon Ellis, Mr. and Mrs. H. S. Foreman, Mr. and Mrs. H. F. Sofge and Bill Williamson.

The local party enjoyed fishing Sunday but Supervisor Ellis was the only one to hook a fish, a seven pound salmon.

The local delegates reported an enthusiastic and successful meeting, at which further impetus for the improvement and promotion of travel over the Tahoe Ukiah through six counties was given.

Fort Bragg Seeks Honor

The desire of Fort Bragg to be designated the western terminus of the route was made known and C. R. Gill of Colusa, president of the association, said resolutions to this effect from Fort Bragg civic organizations will be considered by the association's directors at a meeting in Colusa later this month.

The members of the association discussed further the ways in which promotion funds shall be raised. William S. Randall of Lucerne, assistant secretary, announced charter memberships will be solicited at $1 each. He said a campaign to sell 2,000 such memberships is planned.

Gill Presides

The meeting was held jointly with the Fort Bragg Chamber of Commerce. C. L. Wood, president of the Fort Bragg chamber, presided, later turning the meeting over to Gill. Acting Mayor A. Polly of Fort Bragg gave a brief address of welcome.

In the ensuing discussion on the improvement of certain sections of the six county lateral, Supervisor Johnson of Fort Bragg said he is cooperating with Supervisor Bittenbender for improvement of the road between Willits and Fort Bragg.

There were eighty people at the dinner meeting, with representatives of all six counties along the route—Nevada, Yuba, Sutter, Colusa, Lake and Mendocino, attending.

The Fort Bragg high school orchestra entertained during the dinner hour and dancing followed. Members were taken on excusion trips in the Fort Bragg area Sunday.
